

Hi All,

Well its only a few weeks until racing gets under way at the club with Round1 of the MX pointscore on the 27th of February and Round 1 of the 2011 King of the Bush series on the 6th of March.

If you have been to the club over the last few weeks you would have noticed that works on the carpark track extension are well under way, and we hope to be opening the new section next week. I would recommend all riders use caution when riding the changed track for the first time, with 3 new table top jumps and two roller sections along with some other minor changes to the existing track. I'm sure most riders will enjoy the changes, its challenging and technical.

King of the Bush this year will see some major changes as well, we will be running two single track loops simultaneously with Juniors and Seniors changing loops in the middle of the day. This year will also see Transponder timing for all competitors we are hoping this will see all completing around 8 rounds for the day.

Click here for more info for the King of the Bush

So start counting sleeps and I hope to see you there come Sunday the 27th

Regards
Wayne Mather
Club President
