

# STOLEN

Hi Everyone,

After 18years of Motocross Racing, my son, SCOTT SHAW, has had his motorbike stolen. The **Honda CRF 450R 2012** has red plastics all over, grey rental grips, full Yoshi exhaust system, twin air airfilter, DNA black rims with red hubs - also has 2 blown fork seals. It was stolen from Scott's place at Blue Haven (Central Coast) at 5am yesterday morning (25/3/12).

ENGINE NUMBER: PE05E-2911100  
VIN NUMBER: JH2PE05U2CK100001

Any help or information would be greatly appreciated; also, I am offering \$2,000 cash for any information that leads to the recovery of this bike. (Scott's bike was not insured ☹)

Thank You and Regards
