Amy Boyd's Bike

All three bikes have very expensive racing engines in them and  
are very easy bikes to identify by the owners.

We can not afford to replace them so any help would be  
reasonably rewarded.

They also took three gear bags full of gear as well as five sets of  
boots and ten helmets. They even took three smashed helmets  
that are useless. If anyone has any information please give me a  
call on.....
