## ***Supermoto Set To Launch In Port Macquarie***

One of the most exciting forms of motorcycle racing is coming to Port Macquarie. Supermoto is a combination of road racing and motocross all in the one race and features spectacular slides on the tar and huge off road jumps all on un-treaded “slick” tyres.

Ground work at Port Macquarie Kart Racing Club, Pacific Park is nearing completion and the bikes will be let loose on Sept 3 & 4 to try out the circuit. If all goes well, we could be seeing regular race meetings here in the near future.

Even though they won't be racing this time, riders will be keen to get a step ahead and will provide quite a spectacle as they pit their skills against the newly created track.

Riders will be converging from all over the State and even from Queensland to support the growth of Supermoto in NSW and Australia.

The good news is anyone wishing to experience Supermoto who owns a dirt bike will be able to take to the track with minimal cost and modifications.

The great news for spectators is there will be free admission for this one-off event so come down and see what it's all about.

Spectators and entrants can get more information by checking the website – [www.nswsmr.com.au](http://www.nswsmr.com.au) or email – [president@nswsmr.com.au](mailto:president@nswsmr.com.au).
